

IS YOUR MINISTRY LEGALLY PREPARED?

YOU DON'T HAVE TO FACE RELIGIOUS LIBERTY LEGAL ISSUES ALONE

In today's culture, pregnancy centers are facing an increasing number of religious freedom challenges.

The right of pregnancy centers to operate and minister in accordance with their faith is being threatened by changes in local, state, and federal laws; sexual orientation and gender identity issues; employment disputes; and more.

Your pregnancy center needs to be as prepared and protected as possible, and the ADF Ministry Alliance can help you. The ADF Ministry Alliance is a membership program that provides religious freedom legal help to best protect your ministry's ability to freely spread the Gospel and operate in accordance with Christian principles. The program is an initiative of Alliance Defending Freedom, the largest Christian legal organization in the world committed to protecting religious freedom, free speech, the sanctity of life, parental rights, and marriage and family.

The ADF Ministry Alliance acts as a hub for Christian ministries to gain access to experienced First Amendment lawyers who are available to answer religious liberty questions, conduct document reviews and provide advice, and even represent your pregnancy center in court if necessary and appropriate – it's virtually all-inclusive for religious freedom issues.
